### IMPACT PERFORMANCE RATING

★★★. A CDFI in this group has clear alignment of mission, strategies, activities and data that guides its programs and planning. It accurately tracks appropriate output data that indicate that it is using its resources effectively to benefit its target populations or communities in line with its mission. The CDFI uses its data on an ongoing basis to adjust strategies and activities in accordance with its desired impact. It may track a limited number of impact indicators as well, but impact data tracking may not be rigorous or consistent.

### POLICY PLUS

Policy change is an integral part of this CDFI's strategies. The CDFI leads initiatives to change government policy to benefit the community development finance industry or disadvantaged people and communities. The CDFI can provide evidence of its leadership role in recent policy changes that produced benefits beyond additional resources for the CDFI itself, and management can clearly articulate the CDFI's leadership role in current policy activities.

### FINANCIAL STRENGTH AND PERFORMANCE RATING

AA. A CDFI in this group has very strong financial strength, performance and risk management practices relative to its size, complexity, and risk profile. Challenges are well within the board of directors' and management's capabilities and willingness to strengthen. The CDFI is capable of withstanding fluctuations in its operating environment.

### ABOUT AERIS RATINGS

*Aeris Impact Ratings assess the pursuit and achievement of social mission as evidenced by products and strategies, use of resources, and how impact is measured and informs the refinement of those products and strategies. The Aeris methodology can be applied to any type of mission-driven entity or program.*

*Aeris Financial Ratings assess capitalization, asset quality, management, earnings, and liquidity—often referred to as a 'CAMEL' assessment. The Aeris methodology evaluates financial strength and risk in the context of the community finance sector, and does not use statistically-generated benchmarks due to the limited size of the sector, the wide variety of business models and operating environments.*
