

STARTING POINT BEHAVIORAL HEALTHCARE

STARTING POINT
Behavioral Healthcare
Healing Begins Here

Mission:

“ To promote emotional wellness through psychiatric, mental health and substance abuse services and community education and awareness. ”

“Healing begins here.” This embodies the spirit of Starting Point Behavioral Healthcare, located in Northeast Florida.

Through 3 locations in Nassau County, Starting Point has provided mental health and substance abuse treatment, counseling and prevention services for 18 years. They are the only healthcare facility in the county, and more than 80% of Starting Point clients are low-income. Each individual client works with a team of counselors, doctors, and case management to develop their full potential. The organization also works with state and local agencies to assess and treat teens and children.

Florida Community Loan Fund provided \$1.6 million in financing to purchase the building that houses the organization’s administrative offices and a community based health center. This building was previously leased, and savings generated from the acquisition is expected to allow Starting Point to serve 200 additional clients annually.
